

Managed Information Technology Services

The Value of Managed Services

Information Technology (IT) has become an undeniably critical component of all business operations. Your business success depends on your IT infrastructure. Managed IT services provide you the unlimited proactive support that not only keeps your network running effectively and efficiently, but it helps you reach your business goals.

While you focus on your core business, Second Creek provides you with an enterprise level IT department for less than it would cost you to manage your IT in house. Our "Virtual IT Department" gives you access to a comprehensive suite of tools and processes that normally have been available only at the largest companies. Second Creek will design and effectively manage your day-to-day IT needs while we provide strategic guidance to make sure you get the most from your IT investments.

Our Approach is Simple ...

... and will deliver increased Performance, Security, and Reliability.

Technology can be thought of on a continuum beginning with the proper infrastructure and ongoing maintenance. Once the foundation of your technology is in place the focus shifts to increasing employee productivity and efficiency. Many businesses never reach the top of the pyramid, and never realize the dramatic effects that technology can have on achieving business success. Second Creek will work with you to review your business goals and ensure the right technology is in place to allow your business to succeed.

Full Service IT Department

Technology is a vital aspect of just about every business; it is critical to both the day-to-day operations and the strategic growth of your business. Having a complete IT department with a CTO, Network Manager, Help Desk, and Purchasing Manager is out of reach for most organizations. Second Creek Technologies delivers all of these benefits and more for an affordable monthly fee.

The Second Creek solution provides support, management, and strategic guidance in three areas; PC Management, Server Management, and Network Management. We will design a technology support plan that will meet your specific needs.

Who We Are

Second Creek Technologies provides unlimited Managed IT Services to small businesses with 10 to 200 employees. With our simple approach and pricing it is now easier than ever to have the resources of a complete technology department. Second Creek works with progressive companies and organizations that know the value of technology and want to get the most out of their IT investments.
